STAT

It was good to hear from you in your letter of 2 March.

I have consulted my colleagues here on your proposal to teach a seminar at Yale on intelligence and covert action. All of us here share your general dismay and frustration over the irresponsible disclosures and the often serious misrepresentation of the Agency's work. However, we continue to believe that our best policy is not to seek additional publicity on intelligence matters, and particularly on covert action. Further, it definitely would be inappropriate for us to provide you with teaching materials and support which you requested.

I think that you will agree that without the use of classified material in such a seminar, the treatment would be superficial and distorted, and could well end up helping only those who seek to project a distorted impression of what intelligence is all about.

In short, I believe that it is best to maintain the traditional discipline of the intelligence profession and resist the temptation to go public. The basic judgments on the nation's intelligence apparatus must be made by the policymaking branches of government, and the Agency must take care to avoid the charge of lobbying on policy issues, particularly those in which it is perceived to have a vested interest. There are already, I believe, encouraging signs that the public is beginning to understand that our intelligence operations cannot be effective if they are widely exposed.

I hope this isn't too discouraging, but it does reflect the sentiments here.

Thank you for your interest.

Faithfully,

*Dine*

2 March 1976

Lt. Gen. Vernon A. Walters  
Deputy Director of Central Intelligence  
Langley, Virginia

Dear Gen. Walters:

The purpose of this letter is to seek your informal support and that of the Agency for a seminar which I am proposing to teach as a guest lecturer during the '76-'77 academic year to undergraduates at Yale University. The seminar will be on the subject of intelligence and covert action. The idea was proposed to me by my daughter who will be a senior at Yale in Sept and who is a student representative on the committee of her college which considers and seeks University approval of seminars. In the aftermath of Watergate, the Congressional investigations of the Agency, the Agee book, and all the other disasters which have befallen our Agency, my daughter feels, and I agree, that an objective and sympathetic course could be presented which would seek to place in perspective all that has been said, both good and bad, about the Agency.

In my opinion, a seminar on the subject of intelligence at a prestigious and influential institution like Yale would provide an excellent forum from which to explain the reasons for our existence and to correct many of the wrong impressions which have grown up about us and our Agency. Of course, I am not at all sure that the University will accept my proposal, and I have no idea how much interest a seminar of this type would generate among the students. On both of these points, however, I have made some informal soundings and I am optimistic.

Now, before formally proposing such a seminar to Yale (I have informally discussed it with the dean of my daughter's college and have had an expression of his interest), I would like to have your views. Would the Agency be interested in having such a seminar take place? Would you provide support such as research materials for my lectures, possibly a guest speaker or two, films, books, OTR lesson plans or other materials which would have to be unclassified or declassified? In order to help you respond to these questions, I am enclosing a copy of my draft proposal for your review prior to submitting it to Yale. I realize that some of the reading material may seem heretical, but I believe that in an academic atmosphere, an objective presentation would have to draw upon the writings of our detractors as well as our supporters. Naturally, I would be willing to entertain your views as to other readings or substitutions which might be included in the course.

I would very much appreciate your review of this proposal and your informal views as to the appropriateness and usefulness of such a seminar. I realize that neither you nor the Agency can or would give official sanction to my proposal and I am certainly not requesting such. Although the seminar will not be conducted until at least the fall of '76, I must proceed within the next 2-3 weeks to submit my final proposal. I would therefore like to have your reply as soon as possible.

policies. [ ] visiting lecturer; formerly an officer of the  
Central Intelligence Agency.

Meeting: Two hours per week.

Description: An examination of the United States Government organization for the  
conduct of intelligence acquisition and analysis and for covert action  
operations. U.S. and Soviet intelligence organizations and methods will  
be compared, and the legal and moral aspects of intelligence gathering  
and covert operations in peacetime will be explored. Various case histories  
of U.S. and Soviet operations in this field will be studied. No U.S.  
Government classified information will be discussed or introduced.

Readings: John Barron, KGB: The Secret Work of Soviet Secret Agents  
Oleg Penkovskiy, The Penkovskiy Papers  
Allen Dulles, The Craft of Intelligence  
Agee, Inside the Company

Requirements: Oral reports and a term paper.

We continue to believe that our best policy is not to seek additional publicity on intelligence matters. We would not want to encourage you to proceed with your teaching plans, but if you did so, we would not be able to provide you with any of the requested materials. It would appear that, in any case, without the use of classified information in such a seminar the treatment would necessarily be superficial or, to the extent it consisted of certain reports overtly available, distorted.
